PRODUCT DESCRIPTION

Novo is a new type of system — based on a monolithic panel, we’ve integrated the segmented look that ships pre-assembled, for a great aesthetic quality without complex installation requirements. Mix and match fabric, whiteboard, perforated metal and glass.

Bypass additional labor and installation costs with pre-built segmented panels, including integrated

whiteboard.

Design features include a slim base that runs flush with the panels, a variety of leg and worksurface designs, new storage and fresh Cloud White finish. Glass is available glazed or frameless.
