PRODUCT DESCRIPTION

Clean lines and concealed mounting hardware make the Glassboard Float a great option for private offices, conference rooms and collaborative spaces.

The beautifully smooth Glassboard surface is compatible with any marker and wipes away easily without ever staining or ghosting. Step up to a Clarus Glassboard for your work space.

Our Glass Whiteboards are made from 1/4-inch tempered safety glass that is 4 to 5 times stronger than normal glass and lasts the lifespan of your wall. Contrast that with traditional whiteboards, which

need to be replaced every few years.

The Clarus Glassboard vs whiteboard. The board takes on permanent markers, dry erase markers, pizza, spray paint and even a paintball gun! Nothing performs like a Clarus Glassboard.

The Clarus Glassboard Float is the new standard for visual communications in the workplace, school, hospitals and anywhere written communication is important.

Every Glassboard Float is custom fabricated in the USA because Clarus stands for only the finest quality glass marker board products. All Clarus glass dry erase products are available in custom sizes, colors and printing, resulting in a truly personalized Glassboard offering.

The Glassboard Float easily installs on almost any wall with provided mounting hardware and instructions.
